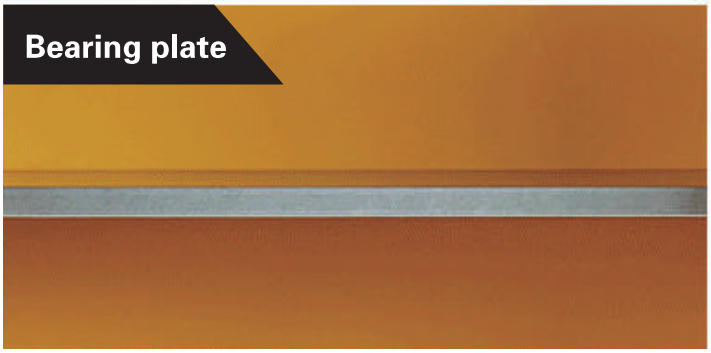
HL100110Y	110/410	double doors	1650*1500*860	270	2



- Isolate flammable liquids within the cabinet to prevent ignition.
- Promote good house–keeping practices by storing all flammable liquids together and away from non–compatible products.
- All flammable safety cabinets feature flame–arrestor vents and earthing points.
- Each flammable storage cabinet includes adjustable feet and shelving.
- The safety cabinet’ s base section captures any leaks and is easily accessible to retrieve spilt liquids.

CORROSIVE STORAGE CABINET

This cabinet is for the storage of corrosive substances in liquid or solid as classified for Dangerous Goods. These include chemicals such as Acids, Alkalis, Caustics, Sodium Hydroxide Solution and Hypochlorite Solution.

Special Features:

- Cabinet doors are fitted with an all stainless steel piano hinge for addedprotection.
- Each shelf can be supplied with plastic spill trays to contain small spills and leakage.
- Additional powder coating of the shelving and closing assembly for added protection.
